### PROFILE

Technical professional with 18+ years of experience in troubleshooting, incident management and operational excellence, now specialized in Cloud and DevOps.

Hands-on experience with AWS, Terraform, Kubernetes, Linux and CI/CD.

Strong problem-solving skills, ownership mindset and focus on automation, reliability and continuous improvement.

Passionate about cloud technologies, continuous learning and building reliable, automated infrastructure.

### TECHNICAL SKILLS

**Cloud:** AWS (EC2, IAM, VPC, S3, RDS, Lambda) | GCP

**Infrastructure as Code:** Terraform

**Containers & Orchestration:** Docker | Kubernetes | Helm

**CI/CD & DevOps:** GitHub Actions | CircleCI | Jenkins | ArgoCD | SonarCloud | Snyk

**Systems:** Linux (Ubuntu) | Git | Bash | Python (Scripting)

**Networking:** TCP/IP | Networking Fundamentals

**Observability & Monitoring:** Prometheus | Grafana | Alerting | Log Analysis

### PRACTICAL EXPERIENCE

#### DevOps & Cloud Engineering Projects | KeepCoding Bootcamp

Sep 2025 – June 2026

- ▶ Designed and implemented CI/CD pipelines for containerized applications, improving deployment reliability for highly available Kubernetes workloads.
- ▶ Deployed containerized applications on Kubernetes using Helm and GitOps (ArgoCD), working with distributed workloads.
- ▶ Provisioned and managed AWS and GCP infrastructure with Terraform, applying Infrastructure as Code best practices.
- ▶ Worked with core AWS services including EC2, S3, IAM, VPC, RDS and Lambda, contributing to reliable cloud infrastructure.
- ▶ Monitored infrastructure using Prometheus and Grafana, analysing metrics and alerts to improve application reliability.
- ▶ Integrated Snyk into CI/CD pipelines to identify vulnerabilities and improve application security.

#### Selected Projects:

- ▶ [github.com/crisTTori](https://github.com/crisTTori) — Personal projects: AWS, Terraform, Docker, Kubernetes and CI/CD.
- ▶ [github.com/resiliencieros/final-project](https://github.com/resiliencieros/final-project) — JobTracker (team project): AWS EKS, Terraform and GitOps.

### WORK EXPERIENCE

#### Technical Service Specialist — Self-Employed

2007 – 2025

BSH Home Appliances (Bosch, Siemens, Gaggenau) | Alicante, Spain

- ▶ Managed incident response in demanding operational environments, prioritizing critical issues, minimizing service disruption and consistently meeting SLA commitments.
- ▶ Performed root cause analysis (RCA) on complex technical failures, improving long-term reliability.
- ▶ Developed strong problem-solving, decision-making, and troubleshooting skills applicable to IT systems and infrastructure.

### EDUCATION

#### DevOps & Cloud Engineering Bootcamp · KeepCoding

Sep 2025 – June 2026

#### Vocational Degree in Consumer Electronics · IES La Torreta, Elche

2004 – 2006

### CERTIFICATIONS

Microsoft Azure AI Fundamentals (AI-900)

2025

Foundations of Programming & Python · KeepCoding

2025

AWS Cloud Practitioner (In Progress)

2026

### LANGUAGES

Spanish: Native | English: Professional Working Proficiency (B2)
